- ▶ Dredge Automation
- ▶ Ethanol Processing
- ▶ Food & Beverage Processing
- ▶ Meat Processing
- ▶ Metal Fabrication
- ▶ Manufacturing
- ▶ Press Operations
- ▶ Sterilization / Cleaning Systems
- ▶ Water Reclamation

WHO WE ARE

Industrial Control Systems, Inc. is committed to technological innovation, reliability, and customer service. That's why we deliver high-quality service and efficient solutions to better meet the needs of our clients. ICS has the track record to prove that the customized solutions and service we provide stand out above the rest. We guarantee that information will be available, accessible, and understandable along the way. Upon completion of each system, we provide full access and rights to the software it's comprised of. So once you're up and running, the software is yours!

At ICS, our highly qualified automation specialists have over 25 years of experience. We constantly look to the future by staying on top of new trends, issues, and regulations across a wide range of industries. This ensures that our integrated systems are continually evolving by the use of sound and innovative technology.

We know that integrity is key in doing good business; and that includes honesty, consistency, and ethical value. That's not a goal for ICS, that's simply the way we do business.

- ▶ Society of Manufacturing Engineers (SME)

WHAT WE DO

Our staff of professionals have years of experience servicing the specific needs of clients in a variety of industries. We study state-of-the-art development tools, programming techniques, and automation equipment so that we can thoroughly design, develop, and install top of the line solutions. In order to do our job efficiently, we approach each project by analysis, problem definition, requirements, and system development to produce the most effective system to meet the primary objective of improving the profitability of our customers.

PROGRAMMING & ELECTRICAL ASSEMBLY

- ▶ Process Control

- ▶ Servo & Stepper Motors
- ▶ Frequency Drives
- ▶ Schematics

SERVICES

- ▶ Consulting
- ▶ Retrofits or new equipment
- ▶ Electrical design
- ▶ Mechanical design

COMMONLY USED PLC / HMI SOFTWARE

- ▶ Allen-Bradley (Rockwell)
- ▶ Automated Solutions
- ▶ AutomationDirect
- ▶ Idec
- ▶ Intellution
- ▶ InduSoft
- ▶ Mitsubishi
- ▶ Omron
- ▶ Siemens
- ▶ Texas Instruments
- ▶ Wonderware
- ▶ Xycom

ADDITIONAL PROGRAMMING SKILLS

- ▶ Visual Basic Programming
- ▶ Database Programming

WHY ICS?

Industrial Control Systems, Inc. has the industry knowledge and experience that is able to reduce your risk, increase your profitability, and put your mind at ease, providing full system support from concept to completion. Being locally owned and operated, ICS brings that hometown, family-friendly type of care to each and every customer. Our system integrators can monitor and change critical systems from either on-site or remote locations thereby reducing costs to our customers. We can service all major brands of equipment for complete systems at the most competitive pricing.

Poor quality documentation has been proven to be the leading source of unnecessary downtime and significant profit loss. Because of this, Industrial Control Systems, Inc. knows that providing user friendly documentation and a comprehensive training program is important as you and your operation transition into the improved system.

OUR DOCUMENTATION

- ▶ Accurate electrical schematics
- ▶ Documented program files
- ▶ Bill of materials
- ▶ Software backup files
- ▶ Manufacturer instructions and warranties

Innovative Solutions ♦ Solid Expertise ♦ Quality Service ♦ Proven Performance
